

Volnay 1er Cru Ronceret

- **Geography** : Back to the center of the village, at the feet of Volnay **Champans** hills, on the cone of dejection.
- **Soil and environment** : Poor light-colored soil with a lot of rocks. It is only 5 to 8 inches deep.
- **The vine** : One plot of about 20 years.
- **The wine** : The wine is tight on the palate but its minerality immediately stands out. Straight, with a nice balance and a good freshness (even if it plays the card of red fruits : blueberries, boysenberries as its name suggests). Fresh, tight and precise tannins will fill out its structure with age.
