

Castilla y Leon, Spain

# MAURO

## Vendimia Seleccionada (VS)

The 2021 VS follows the same path as the rest of the 2021s, with elegance, perfume and purity, but it has more depth than the regular Mauro and a little more concentration and tannins but with the same terrific balance and harmony that should mean a long and positive development in bottle. It's precise and combines power with elegance like few vintages before (1996, 2001, 2018), and it has integrated oak after 26 months in French oak barrels.
