CABERNET FRANC IDENTITY

2020

NATURE GAVE ITS ALL

Winter 2020 was very mild and rainy. Budding began early on March 25. Flowering (mid-point on May 26) benefited from warm, dry conditions.

July brought drought (only 3 mm of rain), slowing down veraison. A storm on August 15 (28 mm) relaunched the ripening. Early September cool nights and sunny days promoted the synthesis of aromas and anthocyanins.

Harvest began early on September 10 with crunchy Merlots picked in a week. The first Cabernets from old vines were harvested on September 17th, and the rest between September 27th and October 1st—an unprecedented end date for Jean Faure's harvest! The 2020 vintage confirms the importance of our clay soils, supporting resilience in dry summers. This vibrant wine reaffirms our commitment to organic and biodynamic viticulture, which, year after year, brings greater freshness and aromatic purity.
