DIDO ‘LA UNIVERSAL’ MONTSANT RED

Dido La Universal is a young eco red wine from Montsant produced by the Venus La Universal winery. It is a blend in which the predominance of Grenache, Merlot, Cabernet Sauvignon and Syrah are evident.

The grapes for this wine comes from a farm of 10 hectares on weathered granite. The characteristics of granite make it easy to change temperature, warm during the day and cool at night. This peculiarity means that a long and good maturation occurs.

Fermentations occur with unselected yeasts in order to try to maintain the aromatic and structural diversity.

On the other hand, the maceration is rather short. The aging, which lasts nine months, is partly in clay jars and partly in concrete tanks.

VARIETAL: 65% Garnacha; 25% Syrah; 10% Carignan / Cabernet Sauvignon / Merlot

COUNTRY: Spain

REGION: Montsant

SOIL: Gravel

FARMING METHOD: Organic

“Tasting the red 2022 Dido next to the 2021 was a revelation of how transparent this wine is with the character of the year: This is darker, with a fruit-driven nose with darker berry fruit and a more voluptuous palate, reflecting the warmer and drier year. It’s a wine with more ripeness and higher alcohol (13.26%) and a rounder mouthfeel, with glossier tannins, even if they harvested a little earlier and do shorter macerations or use a higher percentage of carbonic maceration. They produced 96,000 bottles. It was bottled between January and March 2024.”
