

PAUILLAC DE CHÂTEAU LATOUR

2021

60,9 % Cabernet Sauvignon
28 % Merlot
11,1 % Petit-Verdot

The Pauillac has been produced every year since the 1989 vintage from plots belonging to Château Latour located outside the Enclos, and from the estate's younger vines. This distinguished Pauillac is an excellent introduction to the family of wines produced by Château Latour.

The vines used to make the Pauillac receive the same care and attention from our winegrowers as the rest of the estate's plots. In the winery, our team's expertise enables us to offer a wine that is deep and silky, with a vinification process that respects the elegant tannic structure characteristic of Château Latour, while revealing the purity of the fruit and developing its velvety texture. There is more Merlot in the blend, and a greater proportion of press wine is reintroduced, always with a view to bringing out the fruit without losing any of its depth or delicate texture.

Château Latour's Pauillac may seem more accessible than the Château's other two wines, but will benefit just as much from prolonged cellaring. The Pauillac label proudly displays the dovecote that was built in the 17th century and still stands on the estate today.

The 2021 Pauillac offers delightful fresh balance combined with an elegant structure. The crisp fruit is preserved, while the quality of its tannins and its tension give it excellent ageing potential. A classic Pauillac full of promise.
