• Direct pressing of grapes on arrival at the winery
• Settling
• Fermentation in stainless steel vats

Ageing
• on the lees
• in stainless steel vats (predominantly), wooden vats and casks

A Sauvignon classic

Since 1982, our estate has been cultivating 4 hectares of Sancerre in the village of Montigny. The 'Caillotes' type of pebbly clay and limestone soil produces beautifully fine wines with great regularity. An aromatic wine that mixes citrus and floral notes underpinned by a lovely minerality.

Available in 375 ml and 750 ml
