

Rendezvous 2023

Wow, what a year! A pristine growing season, defined by modest precipitation and restrained temperatures, produced truly perfect conditions. The grapes faithfully took their cue from this idyllic vintage by producing small, concentrated berries with tremendous potential.

Graced with such a year, Rendezvous 2023 is unabashedly powerful and dense, while remaining true to its oh-so-easy-to-love nature. While lush and expressive now, it also seduces with its promise of more to come for those with patience.
